Graduate Data Set		6-8
Data Source and Notes		9
National Nurses and Midwives Data Overview		10-18
PART 1 Student Commencements per year in a course leading to registration	1.1 - 1.6	
National		19
State		19-23
Indigenous and non-indigenous		24-25
PART 2 Student Completions per year in a course leading to registration	2.1 - 2.6	
National		26
State		26-29
Indigenous and non-indigenous		30-31
PART 3 Total student enrolments by year	3.1 - 3.2	32-33
PART 4 Enrolled nurse enrolments (commencing program enrolments) per year in a program leading to registration – all training activity - Indigenous and non-indigenous students	4.1 - 4.8	34-41
PART 5 Enrolled nurse completions per year in a program leading to registration – all training activity - Indigenous and non-indigenous students	5.1 - 5.8	42-49
PART 6 Number of new registrants (initial registration) – NHWDS data re. first time registrations	6.1 - 6.8	50-51
PART 7 New Registrants by workforce status – NHWDS data re: first time registrations	7.1 – 7.36	52-69
PART 8 Employed new registrants where initial qualification in Australia	8.1 – 8.36	70-105
PART 9 Comparison between employed new registrants where initial qualification in Australia and all new registrants	9.1 - 9.8	106-113
PART 10 Employed new registrants by indigenous status, area of nursing, setting of main job and visa type	10.1 – 10.4	114-121
Notes regarding NHWDS data		122
Number of graduate transition places - public sector	11.1	123

INTRODUCTION

In 2014 the Australian Nursing and Midwifery Federation (ANMF) established a National Graduate Nurse and Midwife Roundtable which brought together over 30 nursing and midwifery leaders and key industry stakeholders to discuss ways of securing employment opportunities for nursing and midwifery graduates. The Roundtable included representatives of the Council of Chief Nursing and Midwifery Officers, the Nursing and Midwifery Board of Australia, the Council of Deans of Nursing and Midwifery, the Congress of Aboriginal and Torres Strait Islander Nurse and Midwives, the Australian College of Midwives, federal politicians, public sector and aged care employers, nurse educators, a number of professional nursing associations and, of course, new graduates themselves.

All participants agreed there was a significant problem of underemployment of nurse and midwife graduates, the causes of which are complex and varied, and that further work, which focuses on addressing the key causes, was required. Subsequently, a Working Group of interested Roundtable participants was formed to undertake this further work.

One of the key areas of focus for the Working Group has been ensuring the accuracy of data related to graduates, in terms of numbers graduating, numbers registering and numbers then seeking work in nursing and midwifery. After much discussion and review of the current available data, the group developed and agreed on a minimum data set that is required to make informed predictions and outcomes for future graduate employment.

Five main questions were posed, these included:

1. Numbers of nursing and midwifery student commencements per year in a course leading to registration.
2. Numbers of nursing and midwifery course completions per year in a course leading to registration.
3. Number of new graduates registered (initial registration) from Australian Education providers in a one year period (AIHW data regarding first time registrations).
4. Of the new graduates (initial registration) from Australian Universities, how many are employed in nursing and midwifery.
5. Number of graduate transition places.

The ANMF then worked closely with the Department of Education and Training, National Centre for Vocational Education Research and the Australian Institute of Health and Welfare (AIHW) to drill down on the current available data using the agreed minimum data set as a framework. The ANMF sends correspondence on behalf of the Graduate Working Group to Chief Nursing and Midwifery Officers in each state and territory requesting potential transition/graduate positions for nurses and midwives. The following data booklet has been developed and updated from this completed work, to clearly identify what data is available, what remains outstanding and the limitations with some of the available data.

Limitations

The ANMF has some concerns about the accuracy of data available and presented within the document in terms of providing a complete data set related to graduate nurse and midwife employment. This is primarily due to the ANMF's inability to gain access to some portions of relevant data. These concerns are identified as limitations and notes throughout the document.

GRADUATE DATA SET

1. Numbers of nursing and midwifery student commencements per year in a course leading to registration:

Data Item	Available/ Unavailable	Location/Status
Registered Nurse & Midwives	✓	Table 1.1
Registered Nurse	✓	
Midwife	✓	Table 1.3
Enrolled Nurse (all program enrolments)	✓	Tables 4.1-4.8

Data divided into:

Aboriginal and Torres Strait Islander Nurses and Midwives	✓	Tables 1.5-1.6 & 4.1-4.8
State and Territory	✓	Tables 1.2, 1.4 & 4.1-4.8
Course title – divided into two categories: - Higher Education straight Bachelor and - Double Degree	✓ ✗	Not available
International cohort – visa type	✓ ✓	RNs & midwives Tables 1.1-1.4 ENs Tables 4.1-4.8

2. Numbers of nursing and midwifery course completions per year in a course leading to registration as a:

Data Item	Available/ Unavailable	Location/Status
Registered Nurse & Midwives	✓	Table 2.1
Registered Nurse	✓	
Midwife	✓	Table 2.3
Enrolled Nurse	✓	Table 5.1-5.8

Data divided into:

Aboriginal and Torres Strait Islander Nurses and Midwives	✓	Table 2.5-2.6 & 5.1-5.8
State and Territory	✓	Tables 2.2, 2.4 & 5.1
Course title – divided into two categories: - Higher Education straight Bachelor and - Double Degree	✓ ✗	Not available
International cohort – visa type	✓ ✓	RNs & midwives Tables 2.1-2.4 ENs Tables 5.1-5.8

3. Number of new graduates registered (initial registration) from Australian Education providers in a one year period (NHWDS requested data re first time registrations)

Data Item	Available/ Unavailable	Location/Status
Registered Nurse	✓	Table 6.3
Midwife	✓	Table 6.5
Enrolled Nurse	✓	Table 6.7

Data divided into:

Aboriginal and Torres Strait Islander Nurses and Midwives	✓	Tables 9.1-9.8 & 10.1-10.4
State and Territory	✓	Tables 8.2-8.36
Course title – divided into two categories: - Higher Education straight Bachelor and - Double Degree	✓ ✗	Not available
International cohort – visa type	✓	485 - Temporary graduate 457 - Temporary work

4. Of the new graduates (initial registration) from Australian Universities, how many are employed in nursing and midwifery?

Data Item	Available/ Unavailable	Location/Status
Registered Nurse	✓	Tables 7.10-7.18
Enrolled Nurse	✓	Tables 7.19-7.27
Midwife	✓	Tables 7.28-7.36

Data divided into:

Aboriginal and Torres Strait Islander Nurses and Midwives	✓	Tables 8.1-8.36
State and Territory	✓	Tables 7.1-7.9 & 8.2-8.9, 8.11-8.18, 8.20-8.27, 8.29-8.36
International cohort – visa type	✓	Tables 9.1-9.4
Full-time/part-time- hours per week	✓	Tables 8.1-8.36
Public sector		Tables 8.1-8.36
Private sector		Tables 8.1-8.36
Aged Care sector (not a sector but available in Principal area and work setting)	✓	Tables 10.1-10.4
Other		
Principal area	✓	Tables 10.1-10.4
Principal work setting: • If working part-time how many are actively looking for full-time work? • If not working in nursing and midwifery, what occupation are they employed in?	✗	Not available

5. Number of graduate transition places

a. Divided into:

State and territory		
Public sector	✓	Table 11.1 Note: Table partially updated with latest data
Private sector	✗	Insufficient data to report
Aged care sector	✗	Insufficient data to report
Part-time/ full-time- hours per week	✗	
Principal area	✗	
Principal work setting	✗	
Number of employers offering structured transition programs	✗	
Number of employers using a state or territory based recruitment tool, such as computer match for recruitment.	✗

NATIONAL NURSES AND MIDWIVES DATA OVERVIEW

REGISTERED NURSE AND MIDWIFE DATA:

Undergraduate student commencements per year in a course leading to registration 2012 to 2022

- There was a 6% decrease in the number of student commencements between 2021 and 2022, with 24,177 commencements in 2022 compared to 25,809 in 2021.
- In 2022, 76% of student commencements were Australian citizens, down from 79% previous year. The proportion of students on temporary entry permits increased from 15% to 19% in 2022. There was little change in the relative share of other citizenship categories.

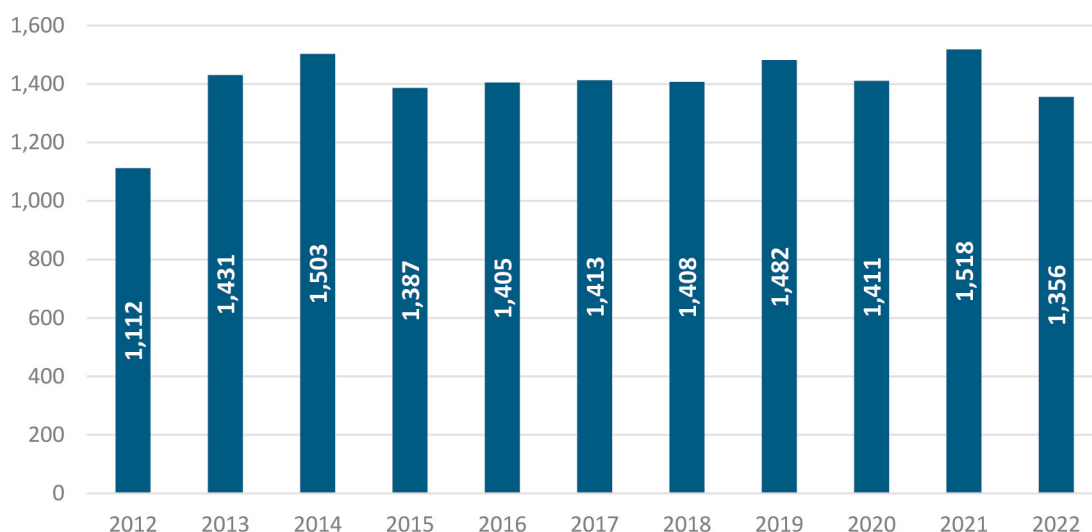

Number of commencements for initial registration as a nurse, 2012-2022

Midwifery data (Direct Entry Midwives)

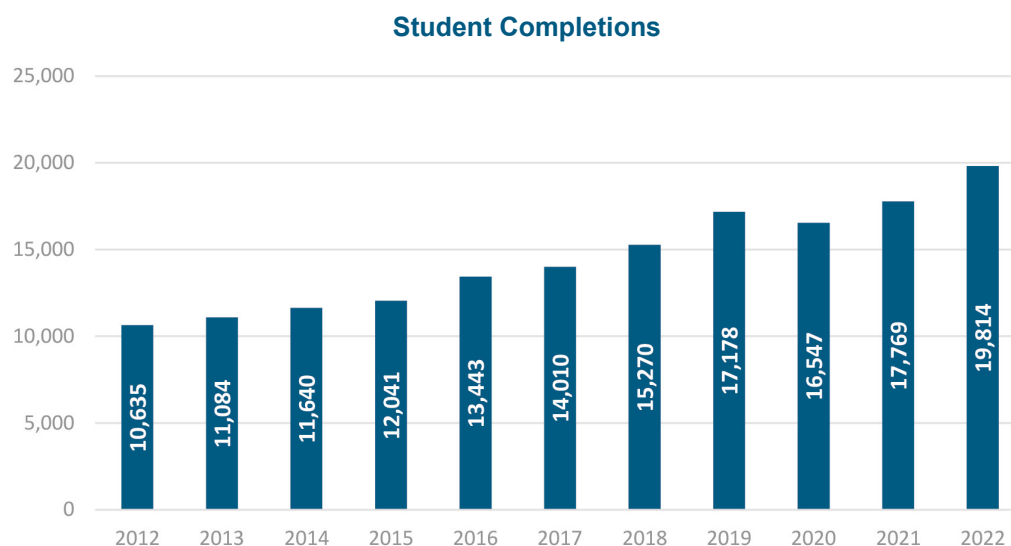

- Between 2021 and 2022, midwifery commencements decreased by 11%. Until this point, the number of commencements each year had not changed significantly between 2013 and 2021.
- In 2022, Australian citizens made up 87% of student commencements in midwifery, similar to other years except in 2021 which was higher (96%).

Midwifery data extracted from: Number of commencement by detailed field of education and citizenship - Bachelor's Pass, Bachelor's Graduate entry & Bachelor's Honours numbers

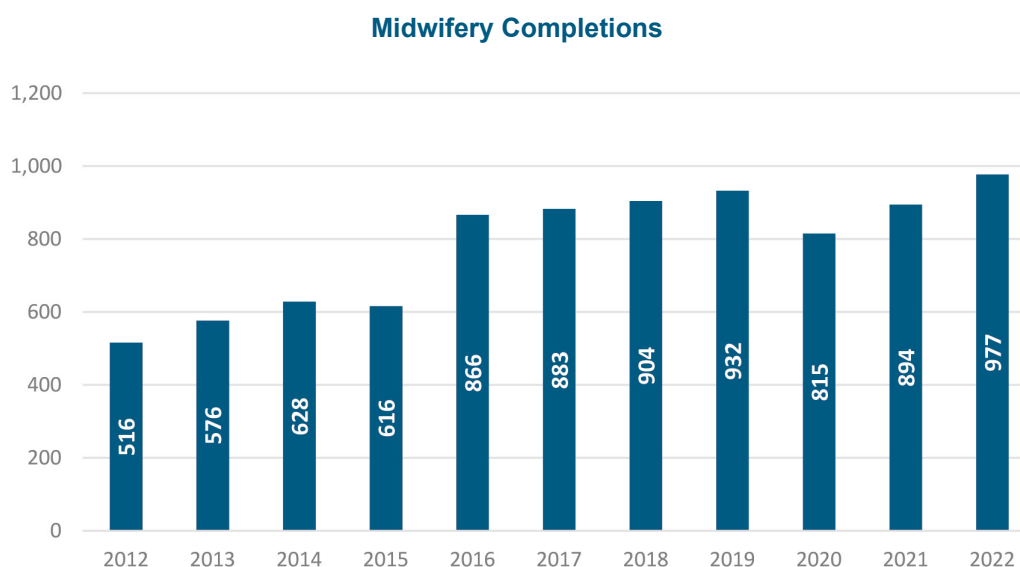

Undergraduate student completions per year in a course leading to registration 2012 to 2022

- Student completions increased by 11.5% in 2022, with 19,814 completions compared to 17,769 in 2021.
- Australian citizens accounted for 70% of completions in 2022, slightly less than the previous year (72%).
- The percentage of completions by students holding temporary entry permits increased from 22.7% in 2021 to 24.2% in 2022.

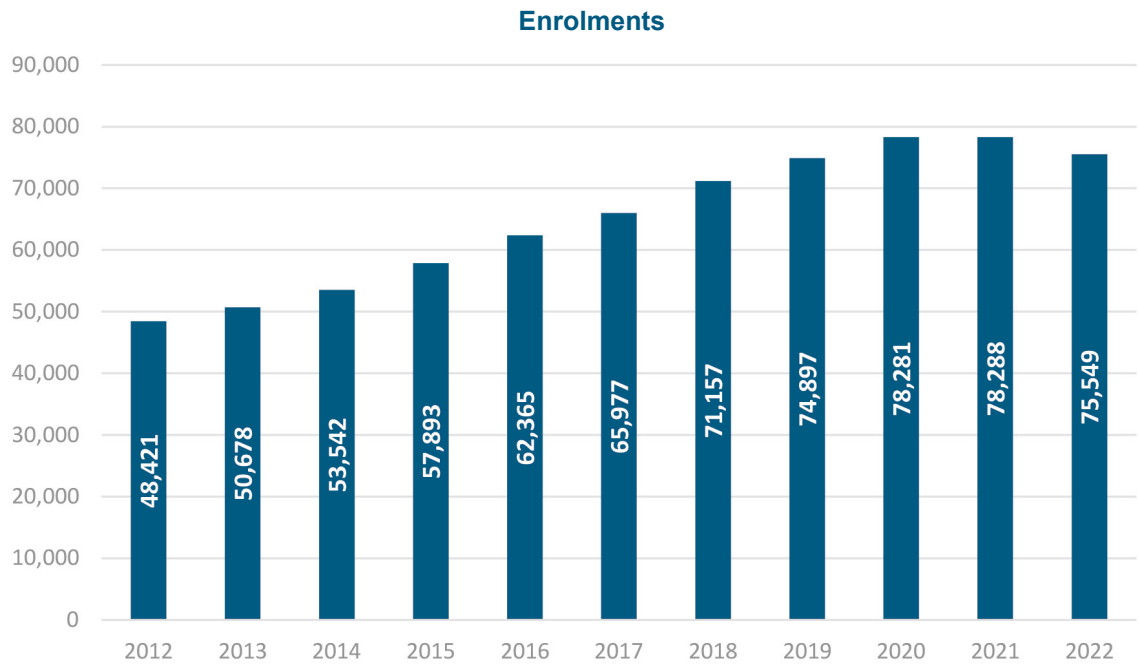

Midwifery data (Direct Entry Midwives)

- Between 2012 and 2015, there was a gradual increase in the number of midwifery course completions. The figure increased sharply in 2016 increasing by 2 to 3% each year until 2020 where it decreased almost 13%, increasing again by 9.7% and 9% in 2021 and 2022 respectively.

Total enrolments for undergraduate nursing and midwifery programs

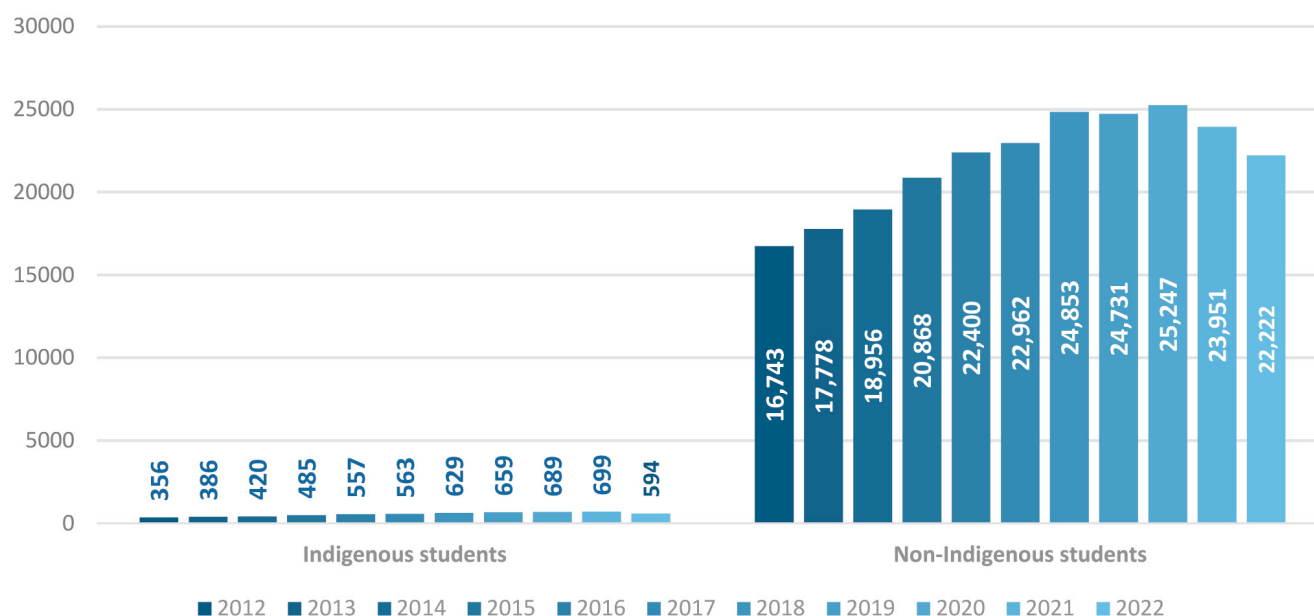

- Total enrolments in 2022 were 75,549, down 3.5% on the previous year. This is the second consecutive year there has been no growth in total enrolments.
- Australian citizens made up 76.3% of enrolments at 2022, consistent with previous years. Similarly, the percentage share of students who are permanent residents and those holding temporary entry permits have remained relatively stable over this period.

Number of commencements for undergraduate nursing and midwifery programs - Indigenous & non-indigenous students

- The number of course commencements for indigenous students have decreased from 699 in 2021 to 594 in 2022.
- Overall, indigenous students made up 2.5% of total student commencements in 2022, slightly less than the previous year.

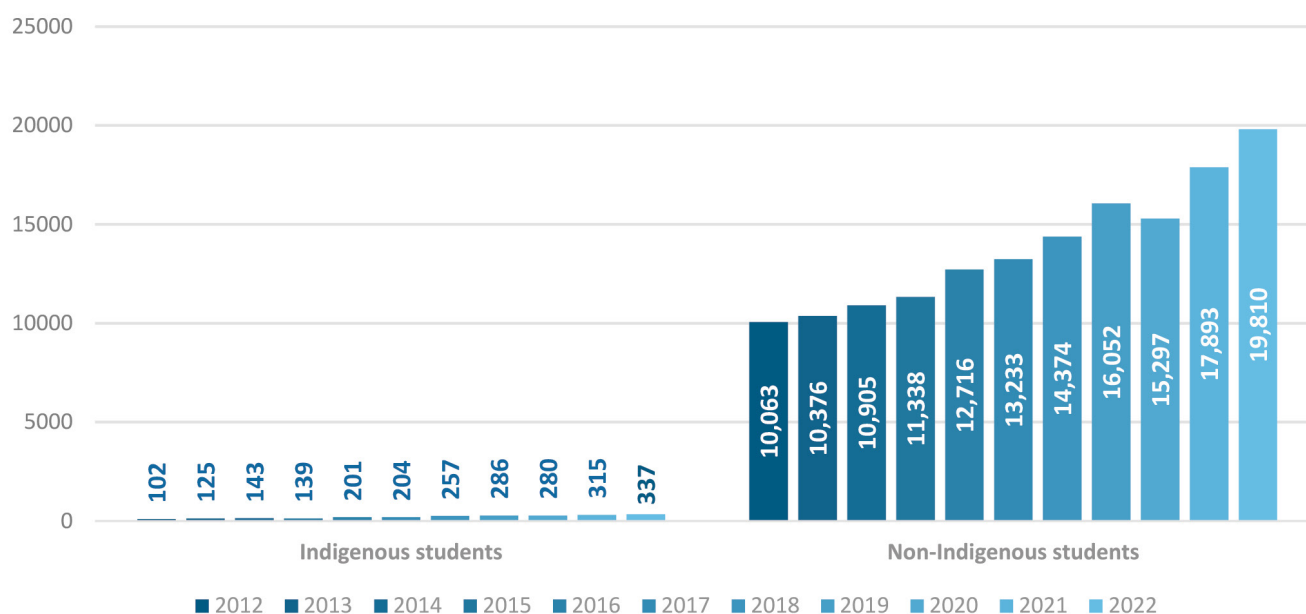

Number of commencements - Indigenous & non-indigenous students

Number of completions for undergraduate nursing and midwifery programs - Indigenous & non-indigenous students

- In 2022, 337 indigenous students completed general nursing courses required for initial registration, 22 more than the previous year.

Number of completions - Indigenous & non-indigenous students

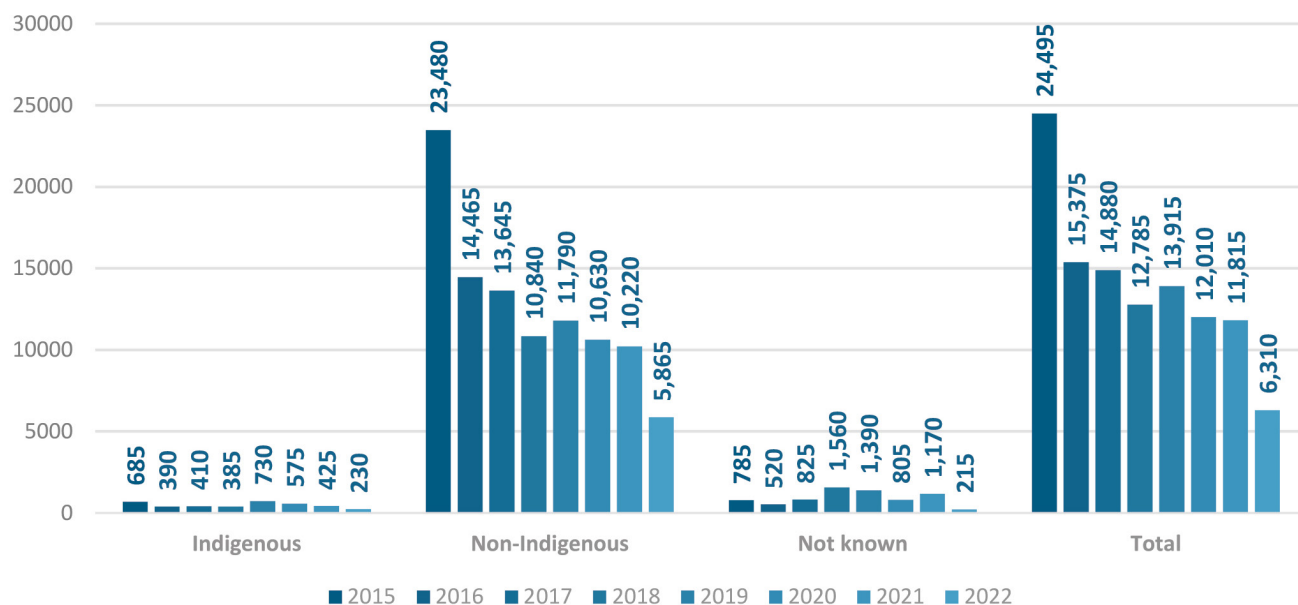

ENROLLED NURSE DATA:

Enrolled nurse - commencing program enrolments

- There were 6,310 commencing program enrolments in 2022, a big decrease (47%) from the previous year (11,815).
- The number of indigenous students commencing in 2022 also decreased with 230 commencing in 2022 compared with 425 in 2021.

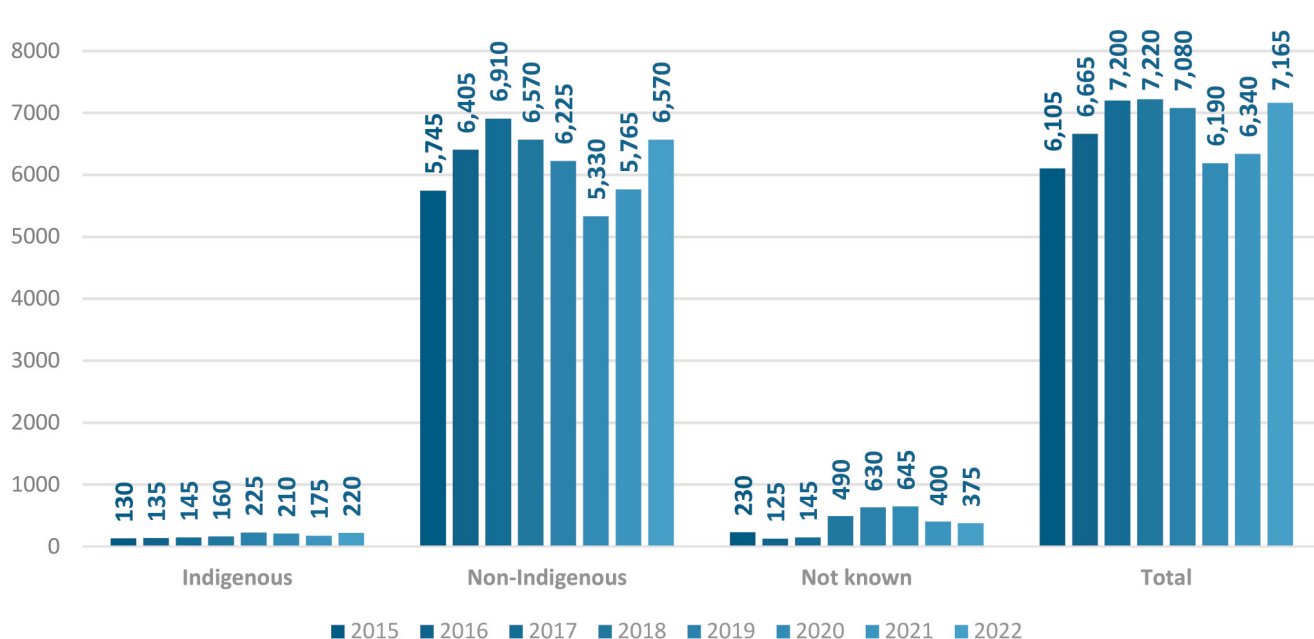

Enrolled nurse - commencing program enrolments

Enrolled nurse - completions

- The number of completions increased in 2022 with 7,165 total completions compared to 6,340 in 2021.
- In 2022, 220 indigenous students completed the program, 45 more than the previous year.

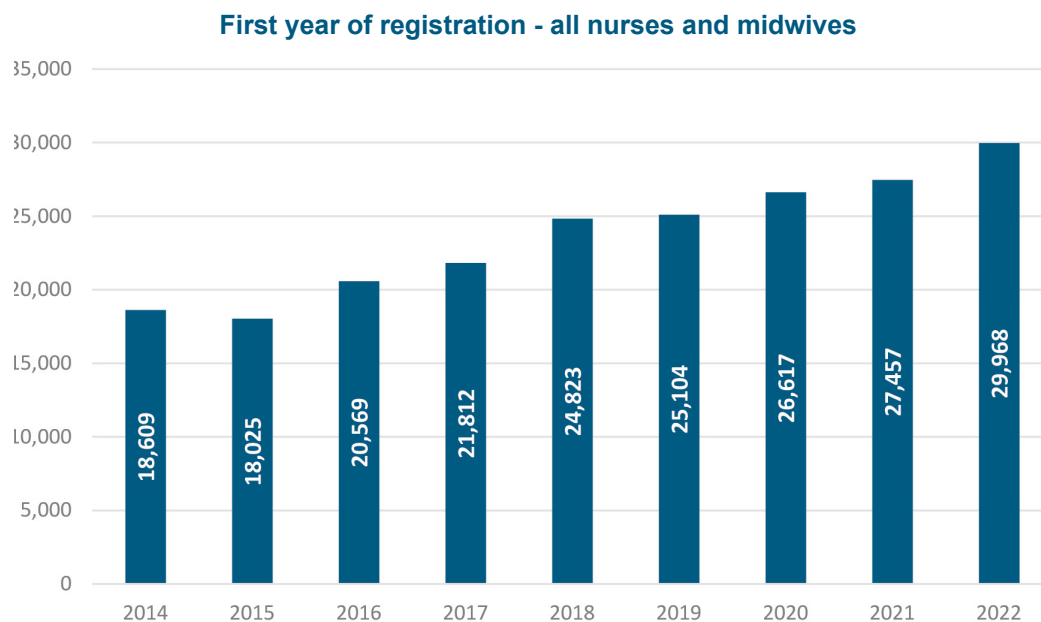

Enrolled nurse program completions

NHWDS FIRST TIME REGISTRATION DATA:

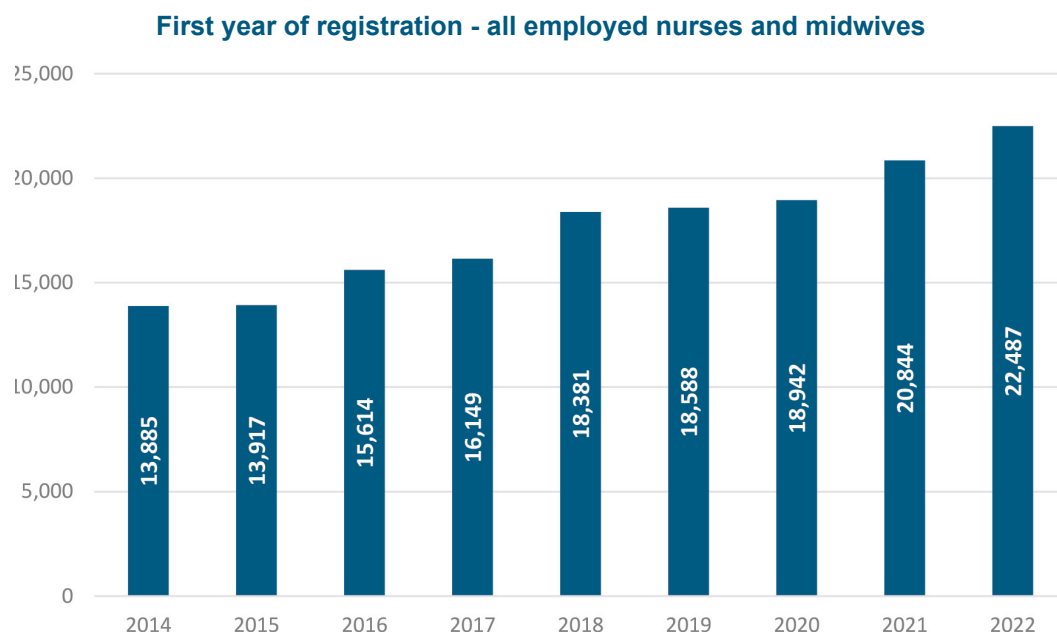

First time registrations - All nurses and midwives [RNs, ENs and Direct Entry Midwives]

- The figures show 29,968 first time registrations in 2022, a 9.1% increase on the previous year.

First year of registration - all employed nurses and midwives [RNs, ENs and Direct Entry Midwives]

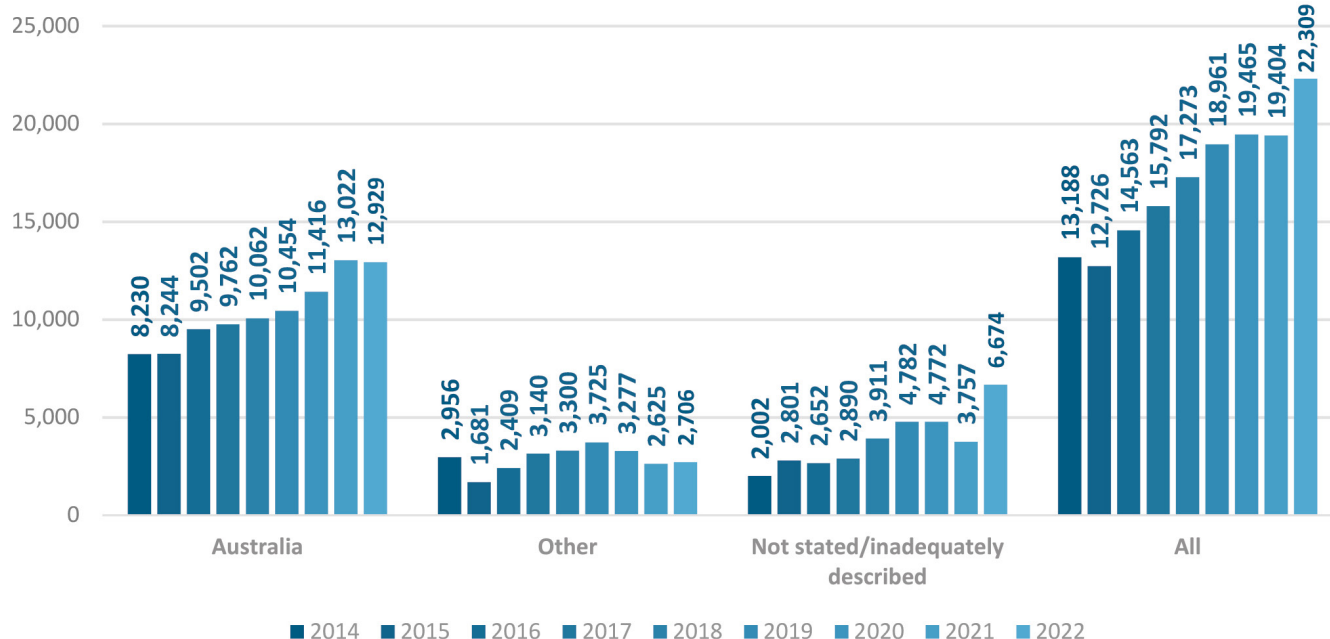

- The number of employed nurses and midwives (first time registration data) increased almost 8% between 2021 and 2022. The percentage of first time registrants employed was 75%, similar to the previous year, and in line with the percentage employed in the years 2014 to 2019.

First time registrations - Registered Nurses [RNs]

- Numbers of RNs registering for the first time increased by 15% from 19,404 in 2021 to 22,309 in 2022. Since 2014, there has been a 69% increase in the number of first time registrations for RNs.

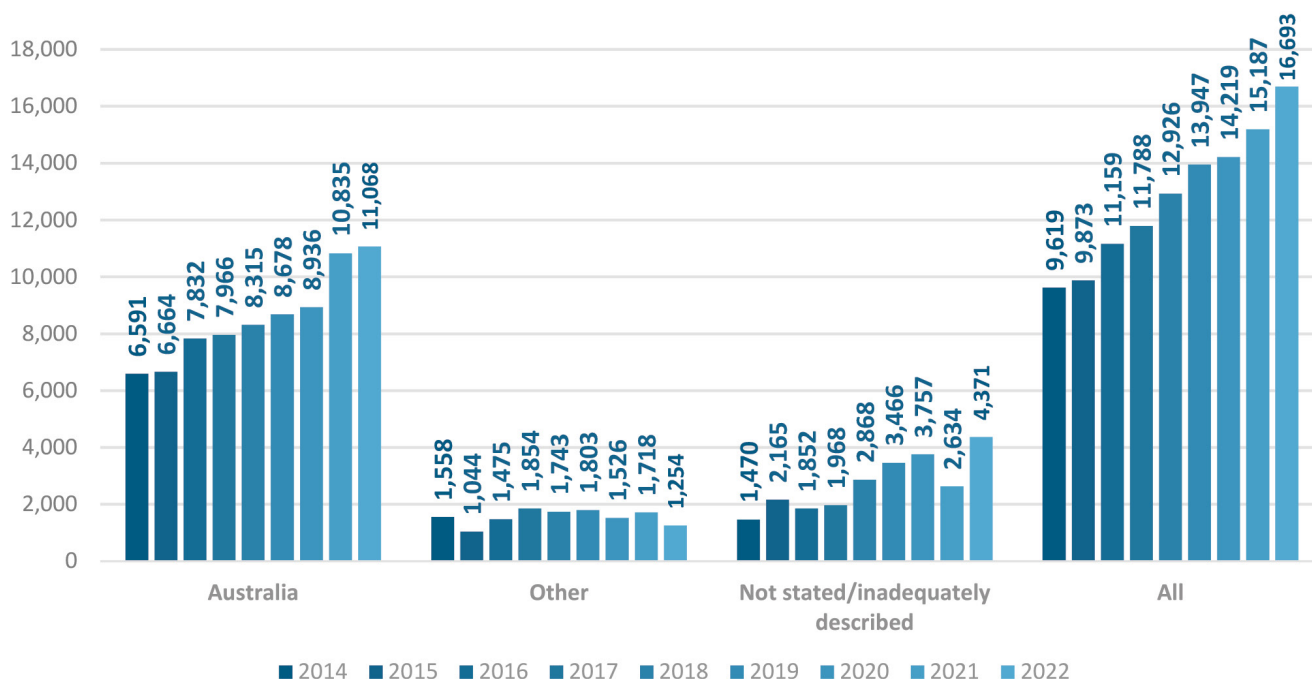

First year of registration - registered nurses by country of first qualification

First time registrations - employed Registered Nurses [RNs]

- The number of first time registered RNs employed in 2022 was 16,693, a 9.9% increase on the previous year's figure of 15,187.
- The 2022 data shows that 75% of RNs registering for the first time were employed, compared to 78% the previous year.

First year of registration - employed registered nurses by country of first qualification

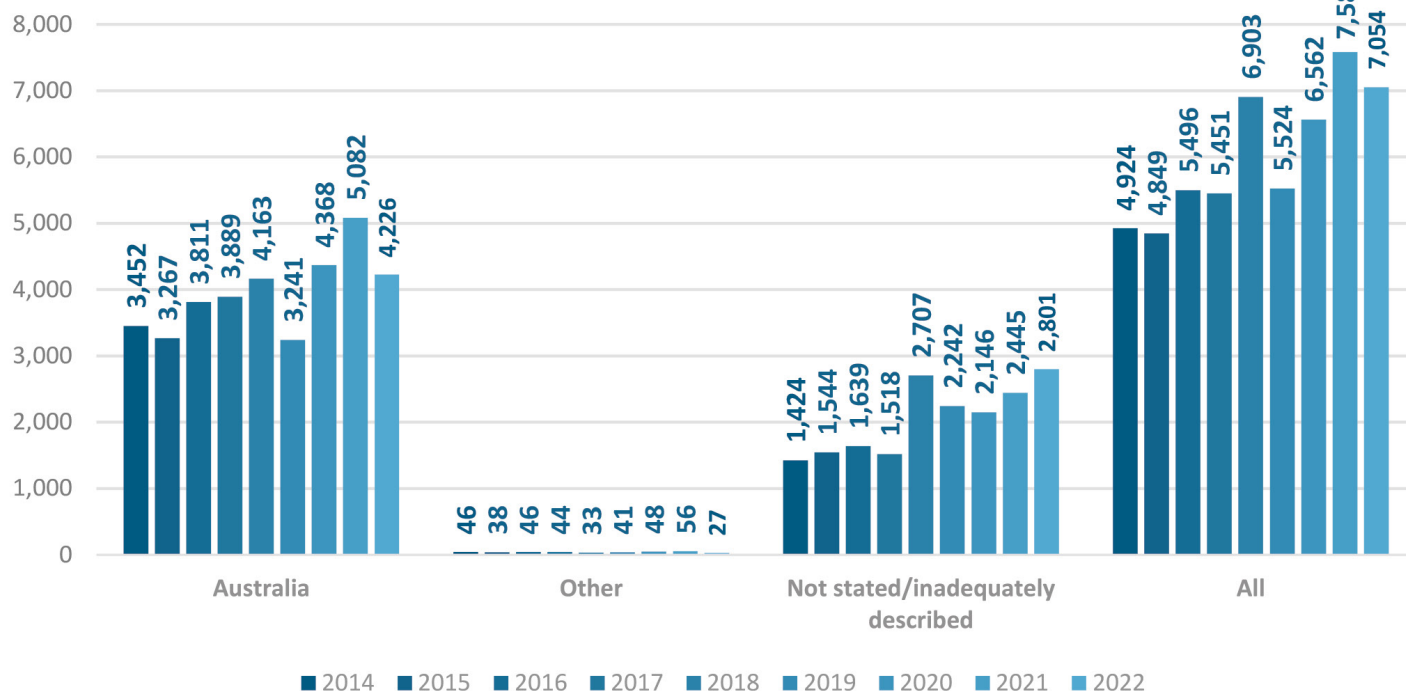

NB: Not stated/inadequately described refers to the number of respondents that did not answer this question on the workforce survey form or answered inadequately and includes non-respondents to the survey.

First time registrations - Enrolled Nurses [ENs]

- First time registrations for Enrolled Nurses in 2022 decreased from 7,583 in 2021 to 7,054 in 2022, a 7% decrease.

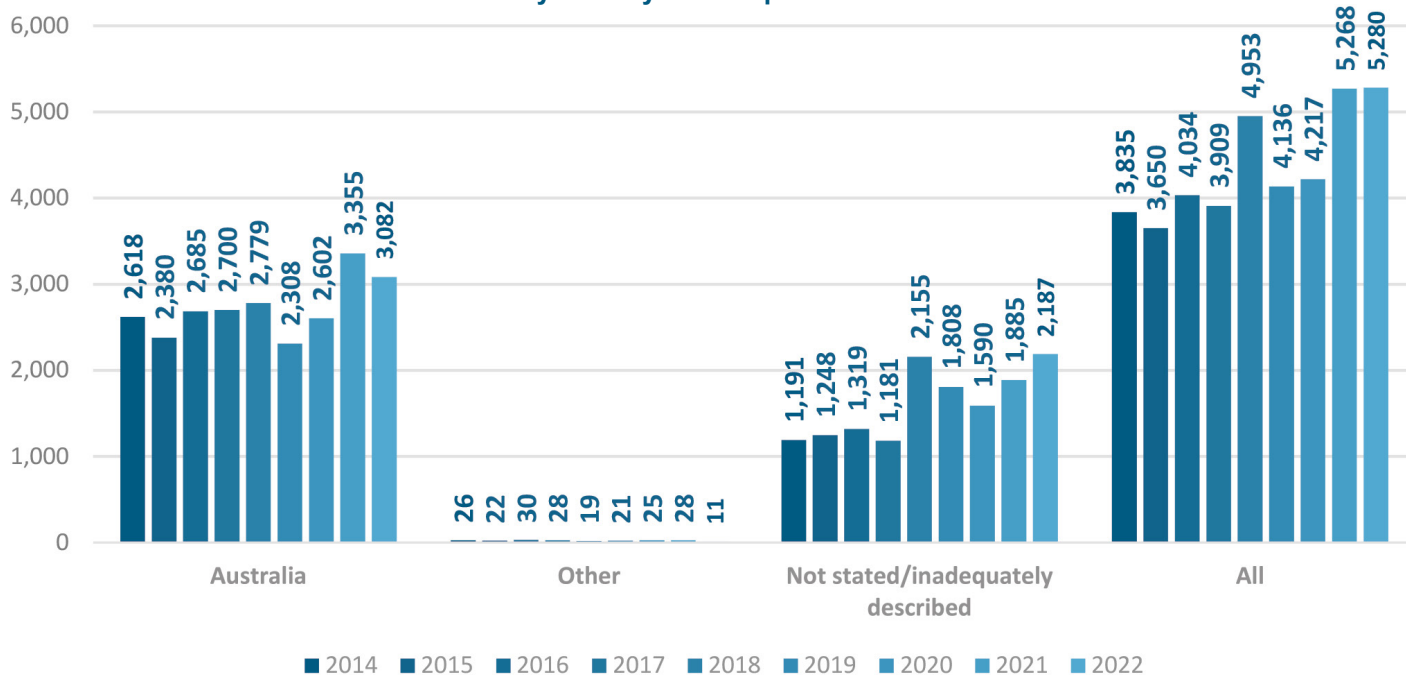

First year of registration - enrolled nurses
by country of first qualification

First time registrations - employed Enrolled Nurses [ENs]

- There was little change in the number of ENs registering for the first time who were employed, with 5,280 employed in 2022.
- In 2022, 75% of ENs registering for the first time were employed, higher than the previous year (69%) but more consistent with the period between 2014 and 2019.

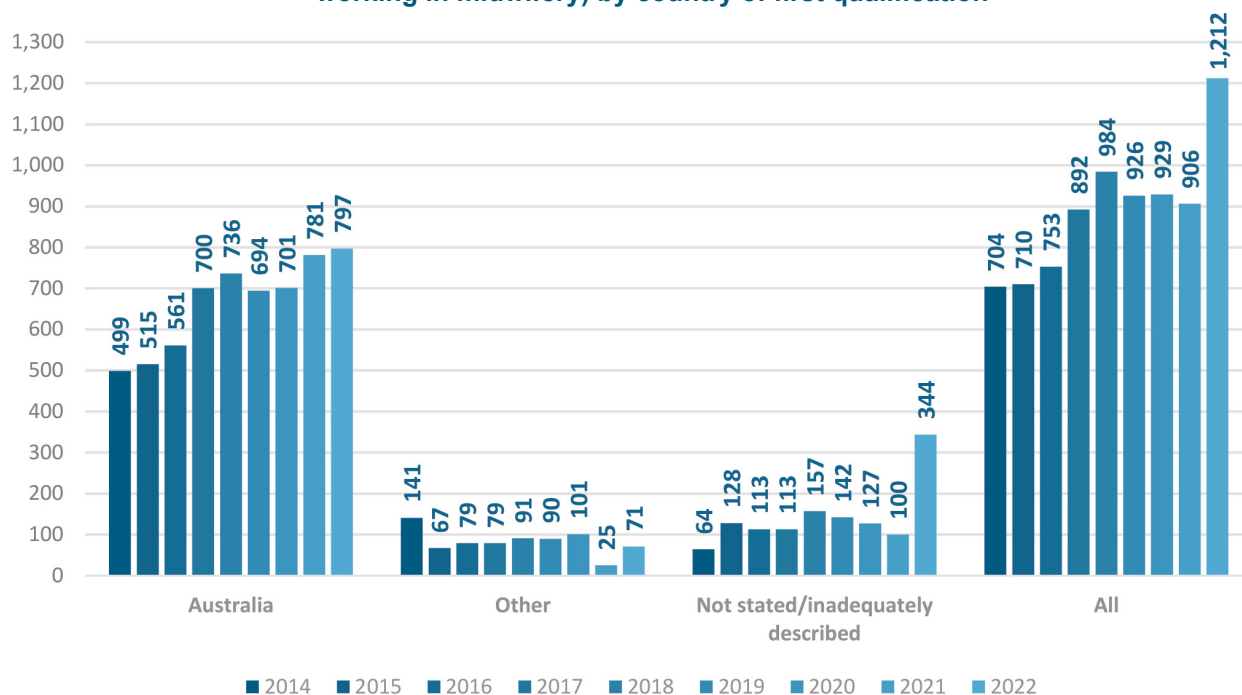

First year of registration - employed enrolled nurses
by country of first qualification

First time registrations – Direct Entry Midwives

- The number of first time registrations for midwives in 2022 was 1,212, over 300 more than the previous year. Since 2014, there has been a 72% increase in midwife registrations, the largest increase being in the previous two years (2021 and 2022).

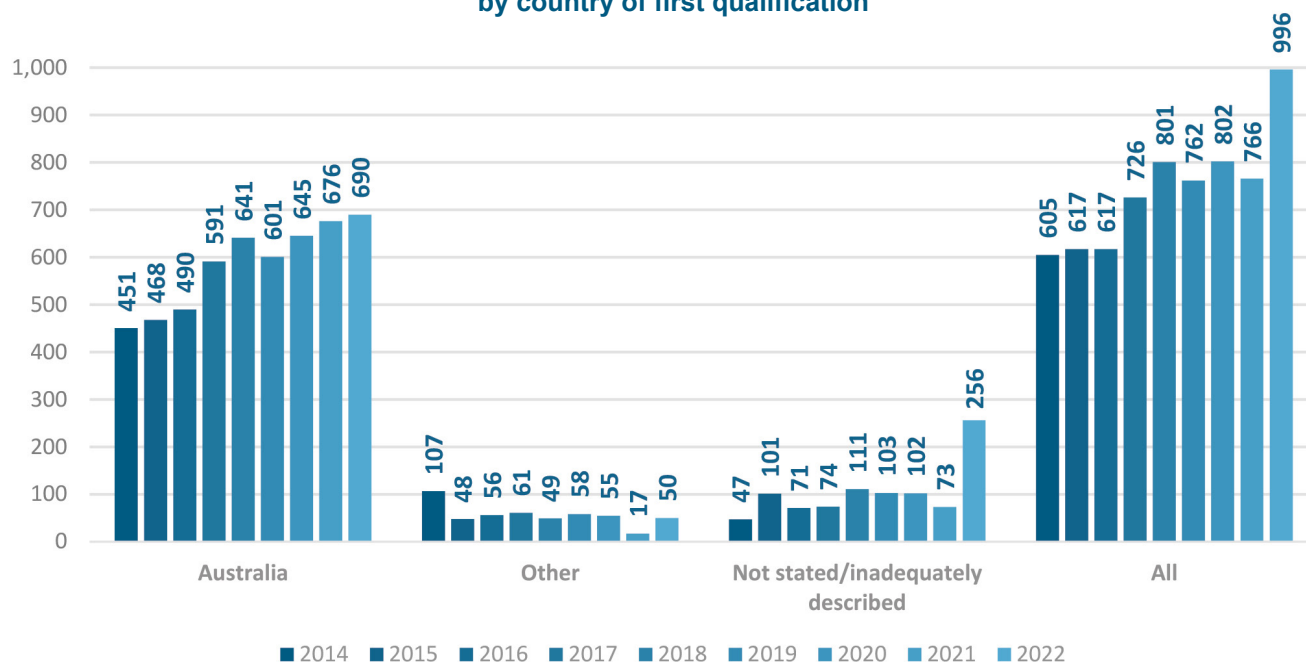

First year of registration - all midwives (regardless of whether working in midwifery) by country of first qualification

First time registrations - employed Direct Entry Midwives

- The number of midwives registering for the first time in 2022 with employment was 966, an increase of 30%, compared with 766 in 2021.
- In 2022, 80% of first time registrants were employed, compared to 55% the previous year.

First year of registration - midwives working in midwifery by country of first qualification

PART 1 - STUDENT COMMENCEMENTS PER YEAR IN A COURSE LEADING TO REGISTRATION

Table 1.1: Number of commencements for initial registration as a nurse by citizenship, 2012-2022

A general nursing course required for initial registration

National by citizenship	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022
Australian citizen	14,141	15,108	16,174	17,617	18,874	19,071	20,222	19,197	19,949	20,494	18,363

Tables 10.1-10.4 Source: NHWDS Nursing and Midwifery, 2013-2022

Not stated/inadequately described includes non-respondents to the survey

For further information on these tables, refer to the 'Notes' sheet

NOTES REGARDING NHWDS DATA:

1. Data extracted from the National Health Workforce Dataset (NHWDS): Nurses and midwives, 2013-2022. Note that the 2013 data was required to derive the 2014 numbers (see Note 2 below).
2. This data is for nurses and midwives that first appeared on the NHWDS database in the reference year (i.e. were not in the NHWDS database in the prior year).
3. The results for new registration are likely to be affected by the timing of graduation, completion of the health workforce survey and recruitment action by significant employers. As a result there are likely to be variations across jurisdictions and years.
4. Any cell containing 5 or less practitioners has been set to 'NP' (not published) for reasons of confidentiality. Consequential cell suppression has been applied to additional cells so that small cell counts cannot be determined.
5. In order to remain consistent with previous AIHW analysis, Enrolled Nurses / Registered Nurses / Midwives are defined using division within the profession, rather than the respective registration flags.
6. In order to remain consistent with previous AIHW analysis, Indigenous Status Grouped has been used to define Indigenous Status, rather than Australian Born Indigenous Status.
7. In order to remain consistent with previous AIHW analysis, Principal areas are defined based on the nursing job area first, then the midwifery job area, rather than the job area the practitioner spends the most number of hours at.

RESPONSE RATES FOR NEW REGISTRATIONS

All registered and enrolled nurses and midwives

	2014	2015	2016	2017	2018	2019	2020	2021	2022
Response Rate	82	76	79	79	74	73	75	74	66

Registered nurses
